**RESEARCH  
EXPERIENCE**

**Research Associate, 2023 – 2025**

University of Southern California, [The Security and Political Economy \(SPEC\) Lab](#)

Supervising Faculty: Benjamin A.T. Graham

Apply advanced statistical, computational, and analytical techniques to assist with ongoing projects. Assist faculty, graduate, and undergraduate students with questions on research design and statistical inference along with troubleshoot code inquiries related to R, Python, and Stata. Key contributor to [Everyday Respect](#) Project.

**Research Assistant, 2021 — 2022**

University of Southern California, Sol Price School of Public Policy and Gould School of Law

Primary Investigators: Abby Wood; Pamela McCann

Analyzed several U.S. federal and state executive orders for the purpose of qualitatively coding and defining different definitions of essential workers and essential business industries throughout the COVID-19 pandemic. Collected, cleaned, organized, and interpreted state-level data regarding essential worker definitions for the purpose of creating a dataset reflecting these several definitions across states. Created Python and R scripts that allowed the ability to web scrape tables from government websites and PDFs, such as the Book of the States reports. Researched and reported U.S. state differences in COVID-19 pandemic response, from their moment of closure to how they continued to evolve throughout the pandemic.

**Research Associate, 2021 — 2024**

University of Southern California, Democracy Lab

Supervising Faculty: Christian R. Grose

Collected, cleaned, and organized data on U.S. state legislatures and their respective representatives' policy positions on several issues. Wrote several literature reviews on the topic of legislative term limits within the context of the U.S. Collected and analyzed several quantitative regression analyses related to citizen voting behavior within the U.S. Ran several racial polarized voting analyses and ability-to-elect analyses across several U.S. states using created Python scripts streamlining the output processes.

**Researcher Associate, 2019 — 2020**

University of Southern California, Schaeffer Center for Health Policy and Economics

Supervising Faculty: Sarah Axeen

Collected, cleaned, and organized data from various resources to conduct several statistical analyses. Quantitatively analyzed the collected data to construct several synthetic control models of Colorado to assess the causal impact of recreational marijuana legislation at the state level. Drafted and successfully published a manuscript that investigated the effects of recreational marijuana legislation on opioid overdose rates in the state of Colorado.

**Policy Analyst, 2018 – 2019**

The City Project

Specialized in conducting comprehensive literature reviews on the health impacts of public parks, particularly for underprivileged urban areas, collaborating on policy research through stakeholder interviews, and contributed to agency papers and a best practices white paper on California's Proposition 68 grant process.
